Dear Mayor Johnson:

The El Dorado Hills Chamber of Commerce supports the current effort to communicate and collaborate with our business partners in the region regarding the entertainment and sports complex.

The special event held last month in El Dorado Hills that promoted King's Season Ticket sales demonstrates the depth of support from our local community. Your remarks and comments were very well received by our community leaders as well. We commend you for reaching beyond Sacramento on the importance of this regional effort.

On July 21, 2011 the El Dorado Hills Chamber of Commerce Board of Directors unanimously voted to support regional cooperation as discussions move forward regarding the development of an entertainment/sports facility for our region. The complex will be an economic benefit and job creator for the entire region and we believe the El Dorado Hills business and community can be a benefactor and contributor in this area.

Regards,

Debbie Manning
