Experience It! Niagara Falls
Whether you’re seeking thrills, romance, natural beauty, or some combination of the three, Niagara Falls delivers all that and more. Considered the second largest waterfall in the world, the falls are a geological phenomenon that formed over 12,000 years ago. While referred to as one unit, Niagara actually consists of three distinct falls - Horseshoe Falls, American Falls, and Bridal Veil Falls. It's said that 3,160 tons of water flow over the falls every second, traveling at a steady rate of 25 mph. Stand in awe and quiet admiration of this natural wonder. For a true sensory experience, cruise the base of the falls and hear the roar of the cascading waters while being enveloped in a cooling mist.
